Student Arrangements: Did all of the students complete their program of study prior to, or on the last date of, educational instruction? If not, what arrangements have been made for students who did not complete their program (e.g., teach-outs, transfers)? Were the arrangements made for completion of their program(s) in place at the time the students first enrolled in the program?

No - not all students completed their program of study prior to the closing of the campus. Students were given the opportunity to transfer all credits to Platt College (PE ID 02306800) in Tulsa. Some instructors were brought to Platt College to assist in this transition for the students. Tuition credits were also give to the students who chose to finish their program at Platt College. One program that Platt College did not have available at the time of the closing was Massage Therapy - but the instructors in the program were transferred to Platt College and students that transferred to Platt College to complete that program and any Title IV Funding that was scheduled to be received in order to assist the student in paying for their tuition or that needed to be refunded back to the appropriate T4 program at the time the withdrawal calculation was performed from Oklahoma Health Academy would be waived when the student in the program transferred in.

Arrangements for completion of the program in case of closure were not in place at the time the students first enrolled in the program.
